TAMIL (Native)

ENGLISH

AWARDS

- Successfully completed a 15-day Web Development Internship at VDart Technologies.
- Developed the EduBlock Education Website using WordPress as an academic project.

EXPERIENCE

WEB DEVELOPMENT

VDART

Completed a 15-day Web Development internship at VDart Technologies, where I gained practical experience in designing and developing responsive websites. Worked with HTML and CSS to build user-friendly web pages while learning industry-standard web development practices. Collaborated with team members, understood project requirements, and enhanced my skills in front-end development, debugging, problem-solving, and website optimization. This internship strengthened my technical knowledge and provided valuable exposure to a professional software development environment.

PROJECTS

Educational Website (EDUBLOCK) 2026-04-11 - 2026-05-11

EduBlock is a responsive education website developed using WordPress to provide an online platform for students to explore courses, learning resources, and educational information. The website was designed with a user-friendly interface and organized navigation, including sections such as Home, About, Courses, Teachers, and Contact. The project focused on creating an engaging and accessible learning environment while applying web design principles, content management, and website customization techniques.
